

Marin Onda  
Site Manager  
GASTech – Kronos  
Abila, Kronos

## Goal

Mr. Onda seeks to work in an innovative environment where he can employ both his advanced Geology education and his strong inter-personal skills. He is interested in both field and office positions.

## Education

Tethys University	Masters Geology	1996
Studies focused on operational applications of drilling techniques involving possible innovations in natural gas capture techniques. GPA 4.0/4.0		
	BSc Geology	1992
Major GPA 3.9; cumulative GPA 3.85/4.0		

## Employment

GASTech - Kronos

Site Manager	2006-Present
Geologist	2003-2006

As Site Manager, Mr. Onda is responsible for both the operational performance of the site and a team of technicians. His duties include scientific oversight of planned operations, schedule and budget management for new activities and staff management.

As a Geologist for GASTech, he maintained current knowledge of all industry standard techniques, as well as, innovations inside GASTech. He is technically well-versed in all substrate extraction techniques.
