

Lars Azada

Research Engineer | GASTech – Kronos | Abila, Kronos

Goal

Mr. Azada desires to work in an environment that values innovation and makes use of his extensive Chemical Engineering background. He has strong interests in fluid dynamics and thermodynamics.

Experience

GASTech - Kronos

Research Engineer

1995-Present

Mr. Azada supports a wide variety of projects for the Engineering group at the Kronos headquarters of GASTech, a leader in drilling and natural gas production. His responsibilities include design input on novel drilling and transport technologies.

Also included in his responsibilities is initial design review of proposed projects.

Tethys Defense Force

1995

Education

Tethys University

BSc Chemical Engineering

Major GPA 3.85; cumulative GPA 3.75/4.0

1995
