

Felix Balas

Research Engineer
Abila, Kronos

Objective

To obtain an engineering management or senior engineering position in R&D, controls, test, continuous improvement or quality at a growing, high-technology corporation where I can use my strong analytical, detail-oriented and interpersonal skills along with my exceptional common sense to improve services and products, reduce costs and lead times and help and mentor others.

Experience

GASTech - Kronos

Research Engineer

2004-Present

- Conduct multi-Sigma projects to reduce engineering rework, reduce project lead times, improve processes, and improve product quality.
- Research, development and implementation of all technologies as they apply to improving GASTech proprietary processes.

Dalekanium Engineering, Ltd., Tethys

Engineer

1992-2004

- Developed master schedules for multiple projects to facilitate proper usage of limited labor resources.
- Worked as part of a multi-site team to develop, document and implement standards for engineering design and practices.
- Implemented and enforced ISO 9001 engineering procedures.
- Developed and administered engineering concept, preliminary and final design review processes.

Tethys Defense Force - Navy

1977-1988

Education

Tethys University BSc Engineering

Major GPA 3.85; cumulative GPA 3.75/4.0

1988-1992
