

Elsa Orilla

Abila, Kronos

Goal

Looking for a hands-on opportunity to apply my geology background to optimizing efficiency and profit in drilling and extraction.

Experience

GASTech - Kronos

Drilling Technician

2004-Present

- Monitor and review daily drilling operations.
- Assist with well permitting process.
- Coordinate location damage issues with appropriate government bureaus.
- Interact and consult with engineering staff regarding complex and difficult workovers or other operations as needed.
- Stay abreast of technology advances involving drilling and recommend utilization of appropriate technology on GASTech assets.
- Review and approve drilling invoices.
- Prepare and present, as needed, periodic management reports and assist in the preparation of budgets and forecasts.

Education

BSc Geology

GPA 3.95

University of Tethys

2004
