

Axel Calzas

Senior Drill Technician
Abila, Kronos

Goal

Continue learning new and exciting techniques while helping my company achieve efficiency and profitability. Looking to take on new responsibilities in the area of drill site management.

Experience

GASTech - Kronos

Senior Drilling Technician

1997-Present

- Coordinated with field engineers in drilling operations and simulations.
- Negotiated with contractors and developers in various on-site projects.
- Collaborated with safety engineers before and after the completion of well construction.
- Oversight of day to day drilling activities, including site safety, new field technician training, and extraction.
- Key staff member during the site location and initial construction phases.
